

Our ingredients for the food & nutrition industry

We are continuously optimising our ingredients portfolio in line with application requirements and customer needs in our local markets. For all application areas, we offer:

- | | | |
|----------------------|--|-----------------------------------|
| Amino acids | Fats | Nutritional blends |
| Anti-oxidants | Flavours | Product performance blends |
| Carbohydrates | Food acids | Proteins |
| Cereals | Fortification blends | Polyols |
| Colorants | Fruits & Vegetables (dried) | Specialities |
| Emulsifiers | Hydrocolloids | Sweeteners |
| Enzymes | Minerals | Vitamins |

Strong in proteins

Do you need proteins to deliver functional or fortification benefits? At Barentz we can deliver the complete proteins range, from vegetable, dairy and animal sources. We can help you develop ingredient combinations that deliver exactly what you want at the right costs.

Experts in natural & clean label solutions

Clean label? We know how to create natural alternatives to preservatives and can provide you with the necessary ingredients. We can also support you in developing E number free and reduced solutions as well as in providing natural ingredients for your clean label products.

Focus on health & well being

We know how to develop specialty foods. Through our understanding of the application opportunities of proteins, enzymes, carbohydrates and amino acids into "healthy choice" consumer end-products, we can help you create customised concepts with low sodium, allergy-free and fortification benefits.

Give yourself the advantage

Discover how the food & nutrition specialists of Barentz can help you develop innovative products, using top quality ingredients from manufacturers around the world.

BARENTZ
from source to solution

BARENTZ
FOOD & NUTRITION

Barentz: your ingredients partner

The Barentz group is an international leader in sales, marketing and distribution of high quality, innovative & standard ingredients, (raw) materials and additives, operating in the food & nutrition, pharmaceutical, personal care, animal nutrition and chemical industries. Established in 1953, the privately owned Barentz group today employs some 600 people and serves around 15,000 customers in more than 50 countries. In 2012, the Barentz group generated a worldwide turnover of 850 million Euros. Barentz' headquarters are based in Hoofddorp, close to Amsterdam in The Netherlands.

We support our customers by helping them make the right choices for the ingredients they need to produce the products that will grow their business. This means that we offer solutions and translate product needs into tailor made ingredient combinations and will assist in developing new innovative concepts, at competitive prices. This is how we make a difference in the lives of our customers, every day.

Focus on customer needs

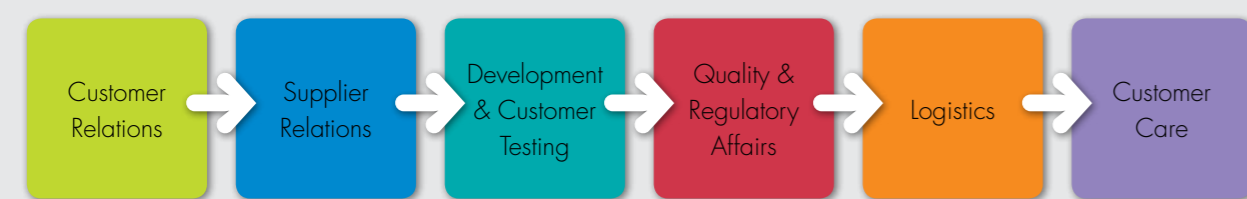

At Barentz we are dedicated to our customers. We can create, source and deliver all of the ingredients required to produce food & beverage products for your "A" brands and private label products. Different consumers require different products and

solutions. So logically, our customers have a wide variety of needs not only for their existing products but also for applying the latest innovations and to develop their future product pipeline. At Barentz Food & Nutrition we have made it our business to excel in delivering outstanding standard and specialized ingredients and solutions for all product categories, from bakery to meat and from confectionary to infant and sports nutrition.

Anticipating market trends and customer demand in the field of health, well being and natural solutions, we can offer our customers a complete range of products to suit their needs. We can also deliver a comprehensive protein portfolio with benefits ranging from enhanced nutrition for athletes to product performance solutions in meat products.

We add value by focusing on what we do best

Supplying & Serving Customers

From source to solution

Expertise to rely on

To serve our customers even better, we develop new and innovative customer concepts in our regional Concept & Application Centers. To help our customers create valuable products in almost every application area, our application technologists test and create nutritional, natural, health and functional blends with proteins, enzymes and other specialised ingredients. We have dedicated labs for bakery, meat & fish, savory and for fortification and anti-oxidant applications.

We can support you in choosing the right ingredients to make the food & nutrition products you need. Once you decide what you want, we will take care of the rest.

Dedication to innovation

Through ongoing monitoring of consumer and manufacturing trends and in-depth market knowledge, our food & nutrition experts are constantly on the lookout for innovative ingredients and application opportunities. Together with our suppliers, we develop innovative concepts and applications in close co-operation with some of the world's leading research institutes and independent consultancies to ensure we can not only meet but exceed your needs.

Through our vast technical knowledge of the food & nutrition industry, application expertise, as well as excellent understanding of our supplier's products and their application opportunities, our local food technologists and food & nutrition experts are best equipped to connect customers with the right ingredients for their projects.

At Barentz we have close to 125 food & nutrition experts who serve our customers in more than 45 local markets worldwide.

With over 60 years experience we know what our customers want and how they want it. Because of our partnerships with manufacturers around the world, we can offer a wide variety of high quality products at highly competitive prices.

- Customised product performance blends
- Customised fortification blends
- Customised anti-oxidant blends
- Excellence in sourcing & supplier relations
- 24-hour delivery from warehouse to customer
- Temperature controlled storage and transportation
- Quality assurance in accordance with industry regulations
- Vendor managed inventory (eVMI)

Our commitment to quality

At Barentz, quality is embedded in our company culture. Our approach towards quality is comprehensive and systematic which allows us to continually improve our services. We believe long-term, solid relationships with our customers and industrial partners provide the best measure for quality.

As part of our quality focus, we have developed and implemented a European Quality Management System in line with industry standards. Throughout the supply chain we are actively involved in supporting our suppliers and partners to comply with the current regulations for the food & nutrition industry. Working

within these guidelines enables us to meet and exceed the very highest quality standards for the distribution of food ingredients.

Our commitment ensures that our quality processes are covered from source to solution, across the entire supply chain, from suppliers to warehousing and the transport of goods to our customers.

Customer care

Our customer care team works closely with local sales managers, supply chain colleagues and suppliers in order to provide you with the best possible service, whatever your requirements.

Our teams take a proactive approach to service and can always help you in any area. From forecasting and delivery planning to keeping you up to date with the latest product developments or price trends, they always strive to keep you one step ahead of your competitors – with better knowledge, insight and service.
