Fries

As one of the world's most productive countries when it comes to potato farming, Belgium has a fertile clay-loam soil and is blessed with ideal weather conditions. Planted in April-May, the early potatoes (Première, Anosta, Amora, Felsina...) are harvested in July, whereas the conservation potatoes (Bintje, Agria, Fontane, Innovator...) are harvested late September, early October.

Once they are calibrated and sorted, the potatoes are washed and steam-peeled, checked by an optical laser and cut into fries. These are then blanched, inspected for a second time with an electronic sorter and dried to limit fat absorption and improve the crispiness. The fries are then pre-fried for 1 minute to 90 seconds in vegetable oil at a temperature of 160°C to 170°C. Finally they are defatted. A third and last check takes place right before the freezing process.

Our packaging possibilities range from 400g to 5 kg.

Fries for the Fryer

Perfectly adapted for deep-fat frying, these long fries have an appetizing golden colour and a delicious crispy texture. They come in a multitude of cut sizes, two of them are also skin-on.

These fries are "Dual Storage", i.e. they can be stored several months in the freezer at -18°C or 2 up to 4 days in the fridge between +2 and +4°C (with bags removed from the carton).

2-Way-Cook Fries with Sunflower Oil

Xtra+ Fries are:

- ① made from a long potato variety with a high dry matter content for extra crispiness
- ② pre-fried in sunflower oil, meaning they contain less saturated fats
- ③ 2-Way-Cook, i.e. they can be cooked in the fryer and the oven with an excellent result in both cases

3-Way-Cook Fries with Sunflower Oil

3-way cook

Thanks to their specially developed industrial pre-cooking process, these fries can be prepared using 3 cooking methods: (deep fat) **fryer**, (convection) **oven** or (oil less) **air fryer**.

This is a major advantage for the retailers, as health conscious consumers can choose their preferred cooking method, while supermarkets can free up precious shelf space.

FastReady Fries

FastReady

The main USP of these fries, targeting the foodservice sector, is that they can be fried in just **Ready in 90^{*} sec. from defrosted.** * valid from defrosted product in a professional fryer. They can also be cooked in the oven, making them lower in fat (30 to 50% less than in the fryer).

Flavors of the World

This range offers exciting new flavors from around the world. They bring a touch of regional authenticity, yet they are familiar for a wide public.

Made from the Beauregard (or similar) sweet potato variety, coated with a gluten-free starch coating and delicately salted (less than 0,5%), the Lutosa Sweet Potato Fries are crispy on the outside, yet fluffy inside.

Cut Potatoes

Our Cut Potatoes come in a wide array of different shapes (diced, sliced or wedges), skin-on or skin-off, coated with spices or plain, evenly cut or more irregular just as if they were "home-made". The colouring and type of oil can also be adapted in line with the final cooking method (fryer, oven or pan). They may be served as a side-dish or mixed with other ingredients in a stir-fry.

Moreover their homogeneous size and colour make them perfect for use by manufacturers as a component for ready meals or gratins.

Our Baby Roast Potatoes, small perfectly calibrated pre-fried baby potatoes, are a real delicacy appreciated all over the world for their good taste, consistent size and colour.

Mashed Potatoes

Discover the smooth texture and delicious Bintje taste in our range of exquisite mashed potatoes. These high quality products are perfect for use at home and in restaurants due to their perfect portionability and the ease of preparation. They are also used in the manufacturing of ready meals.

If you want to present mash in a different, more stylish way on the plate, you can use the Lutosa Potato Swirls. They are made up of the same fluffy Bintje mash, then shaped into fine-looking Duchesse shapes, but with the important difference that they have not been pre-fried.

Cook them in a combi-steamer oven or (covered) in the microwave to keep fat intake under control. But of course you can also put them in a baking tray of a regular convection oven with just a drizzle or spray of good quality olive oil, to get a golden, crusty top.

Mashed Potatoes

After processing, our mashed potatoes (except Swirls) are shaped into small pellets or cylinders of a few grams each, then **individually quick frozen** (IQF) at -18°C.

On the one hand this guarantees a perfect portionability and, on the other hand, it allows for shorter preparation times and a more homogeneous result.

Specialities made from Shredded Potatoes

These shredded specialities are crispy by nature, without addition of a coating. This range takes us for a genuine trip around the world.

The Röstis are a Swiss specialty made from shredded Bintje potatoes and come in different flavours to suit everyone's taste: onion, bacon, cheese or veggies. Perfect as a side dish or just as a snack.

The Potato Pancakes - based on the authentic Kartoffelpuffer recipe from the German region of Thüringen - are made from shredded Agria potatoes, fresh onions and salt. They can equally be served with a sweet or savoury garnish.

The traditional American Hash Brown, uniquely crispy, is typically served for breakfast over there, but will also readily add a crispy bite to any meal.

Brand new in the range are the Potato Crispies, crunchy small nugget-like bites of well-flavoured shredded potatoes.

Organic Range

Lutosa is Europe's largest manufacturer of organic fries and potato specialities. The organic range is primarily made from organic Agria potatoes grown without chemical pesticides nor fertilizers.

Immediately after harvest, the potatoes are processed without additives. The fries and wedges are pre-fried in high-quality organic sunflower oil giving them that mouth-watering delicious taste.

Organic plain mashed potatoes and organic flakes complete this high-quality offering.

Products from organic farming, certified by Certisys BE-BIO-01.

Potato Flakes

For Lutosa the production of flakes is a business activity in its own right, starting from selected fresh potatoes.

Our experience and know-how, continuous monitoring of production quality, both during the manufacturing process and in the chemical and bacteriological laboratory, make our potato flakes among the finest in the market.

With its 40 years of experience, Lutosa is able to offer its customers “customized flakes” by fine-tuning recipes to specific applications (instant mash potatoes, gnocchi, biscuits, snacks, soups, etc.) or by developing specific recipes (flakes with milk, seasoning, etc.).
