Cereals

10

REASONS WHY
**NINOLAC® WITHOUT
ADDED SUGAR IS THE
IDEAL NUTRITION
AFTER MOM'S MILK**

1

Great taste

When it's time to start eating, your baby needs great tastes and big variety! NINOLAC brings you more options than any other baby cereal. We have it with or without milk, with fruits, honey, vegetables...

2

Helps growth

You will love NINOLAC for what we put in it: all the essential nutrients for the good development of your baby, such as high biological value proteins, lipids, fibers, vitamins A, D, E, C, B1, B2, B12, B6, folic acid, panthotenic acid, biotin, niacin, iron, calcium, phosphor, potassium, zinc, ...

3

No added sugar

You will also love NINOLAC for what we *don't* put in it: no added sugar, no preservatives, no thickeners, no coloring or artificial flavors. All ingredients are natural.

4

Easier digestion

We make NINOLAC with unique hydrolysis technology helping the baby to digest and providing natural sweetness. So that even without added sugar, **NINOLAC** still tastes sweet to your sweetie.

5

Brain and vision

NINOLAC without added sugar is packed with DHA FROM ALGAE OIL that helps your little one to develop good brain. We also thought about the eyes, and we put in NINOLAC the right quantity of Vitamin A babies need for developing good vision.

6 Immune system

NINOLAC has plenty of good nutrients to develop a strong immune response in your baby. Rich in iron, it helps preventing anemia. Zinc and other minerals and vitamins also help protecting the baby from common diseases.

7 Fibers

NINOLAC contains fibers that help the digestive transit and reduce constipation. They also favor the formation of good bacteria that protects the intestines, reducing infections and diarrhea.

8 Less allergy risk

NINOLAC is free from most of the things that can cause future allergy to your baby: no soy, eggs, nuts, peanuts, fish ... Certain of our flavors are also gluten-free (*please check the packs*).

9 Prepares quickly

NINOLAC is made for your baby, but we also care about you! This is why we made NINOLAC so easy to prepare: just add tepid water or milk (according to the type of product) and stir... *1, 2, 3, ready!*

10 Assured quality

NINOLAC's manufacturing is certified with GRADE A by the BRC quality system, one of the world's most rigid ones. **Ninolac is made in Europe** and conforms to the European norms concerning pesticides, contaminants and GMO. Everything is checked from the ingredients to the finished product. NINOLAC always ensures the best quality for your baby.

**Your loving care
