THE PERFECT BASE FOR DAIRY PRODUCTS

The broad Colac assortment of fruit preparations for dairy products consists of conventional and organic certified range.

Refreshing yoghurt, drink yoghurt or fresh cheese with a delicious fruity taste !

The fruit preparations are developed according the requirements for use in dairy: the fruitpreps can be mixed or layered with the yoghurt. The majority of the fruitspreps contain pieces of fruit , but they exist also based on puree. Specifically for whey drink, the fruitpreps are without seeds or skin.

Dairy delicious !
