

The reliability of our processes,  
the cooperative spirit: our daily mission.

Located in the heart of Europe, in the Belgian Ardennes, the incorporated company Solarec is active in the dairy industry. Subsidiary of The « Laiterie des Ardennes » group, we transform and sell the milk by our farmers. Each year nearly 1,5 billion liters is converted into around 100,000 tonnes of milk powder, 50,000 tonnes of butter, 220 million of U.H.T. milk and 30,000 tonnes of mozzarella.

PUFF PASTRY BUTTER

The quality to savor

# PUFF PASTRY BUTTER

This 82% fat butter has ideal plasticity and firmness for even, aerated puff pastry. The mastery of the production by our master butter makers makes it possible to have a butter of a higher quality than that of winter butter, that remains consistent throughout the year.

<b>Packaging</b>	Box of 5 sheets of 2 kg
<b>Milk origin</b>	Belgium or E.U
<b>Applications</b>	Puff pastry, viennoiserie
