FUJI OIL EUROPE
ADDING VALUE TO EVERY RECIPE

ALL-ROUND FULLY
HYDROGENATED FATS

Melanocoat NP

*Based on coconut
and sunflower oil*

BOTANICAL ORIGIN

EASY PROCESSING

FUJI OIL EUROPE
ADDING VALUE TO EVERY RECIPE

Characteristics & applications

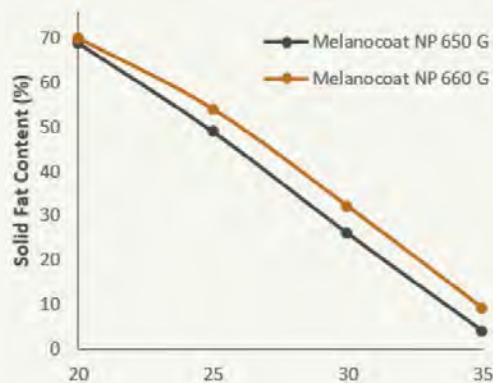

Melanocoat NP is a fully hydrogenated **non-trans** fat, based on **coconut** and **sunflower** oil.

Melanocoat NP can serve as coating for biscuits, wafers, donuts, foam kisses and it is excellent for coating chilled cottage cheese.

Melanocoat NP is well-suited to replace common, hydrogenated fats in whipped toppings.

PROCESSING

Melanocoat NP is non-temper.
Its fast crystallization speed ensures easy processing and high line efficiency..

FUNCTIONAL BENEFITS

High oxidation stability.
Good pliability.
Pleasant melting behaviour & texture,
allowing the desired flavour development.

*Don't hesitate to ask further
info or a sample*
