Chocolate Collection

the CHOCOLATIER SINCE 1956
Belgian

Belgium is worldwide adored for its food & beer culture, but also for its famous Belgian chocolates, which we are very passionate about. Belgium's affiliation with chocolate dates from the 17th century. Chocolate plays a substantial part in the Belgian economy. Besides the fact that it is broadly consumed in the country itself, it is also a widely exported product. The unique combination of the finest ingredients, exclusive production methods and stringent quality controls make Belgian chocolates a worldwide favourite.

Olen

Herentals

THE BELGIAN CHOCOLATE GROUP

Founded in 1956, The Belgian Chocolate Group, a family-owned company, is a well-established manufacturer and exporter of premium chocolate products, offering high quality at attractive prices. All the products are made in our 2 modern production sites which are based in Belgium.

THE BELGIAN

The “The Belgian” brand reflects the traditional chocolate making expertise from Belgium and has built a strong reputation amongst chocolate lovers throughout the world.

The brand name “The Belgian” is associated with fine quality and delicious tasting products from Belgium. We have the widest range of fine chocolates, which we present in a variety of shapes and packaging sizes. The brand is sold in around 100 countries.

The Belgian offers chocolate for every mood and every occasion.

IFS & BRC A⁺⁺

Quality is of the utmost importance to our company. That is why we devote a lot of effort in making our products safe and delicious. In 2012 The Belgian Chocolate Group was the first Belgian chocolate producer who chose for unannounced audits and achieved a BRC-certification. This certification reassures retailers and manufacturers of the capability and competence of the supplier and reduces the number of food safety audits by each retailer, thereby reducing the administrative burden on both the supplier and the customer.

FAIRTRADE & ORGANIC

In 2018, The Belgian launched their first organic range, which is also certified Fairtrade. A fair-trade compliance is a clear agreement between producers and farmers to help farmers develop their business. Moreover, this agreement also has guidelines relating to the preservation and respect of the environment.

The image features several chocolate seashell candies scattered on a rustic wooden surface. The candies are dark brown with intricate, ribbed patterns that mimic the texture of seashells. Some candies are whole, while others are broken, revealing a lighter-colored filling. The lighting is warm and focused, highlighting the glossy finish of the chocolate and the natural grain of the wood. The overall composition is artistic and appetizing.

74 - Dark with Almonds (100g)

A close-up photograph of several organic chocolate bars on a rustic wooden surface. The bars are dark brown with a ribbed texture. One bar in the foreground is broken, revealing a filling of almonds. Butter is melting on the surface, and chocolate shavings are scattered around. The text "Organic Bars" is overlaid in white, with "delicious varieties" below it.

Organic Bars

delicious varieties

ORGANIC RANGE

Organic is on the rise in all food categories and also in chocolate. The Belgian offers 5 delicious varieties of certified organic and Fairtrade chocolates in an attractive packaging design. A fair-trade compliance is a clear agreement between cocoa producers and farmers to help them develop a sustainable and fair business.

During the production of our organic products, the environment and animal welfare are taken into account as much as possible. For example, the use of chemicals such as pesticides is not permitted in organic chocolate. Organic farming and organic products therefore have a positive effect on biodiversity, ecosystems and the environment in general.

Our BIO products are certified by:
