

TROUBADOUR SERIES

Troubadour Blond was the very first beer of The Musketeers Brewery and it was immediately a hit.

Loved and appreciated, the brewers have created a whole series of Troubadour beers. The beers breathe the Belgian beer tradition, but always with a distinctive and contemporary twist.

Available in small (33 cl) and large (75 cl) bottles and keg.

The Musketeers Brewery makes beer that makes people talk.

Our brewery site is also a place with a story and a rich past. We transformed an old brickyard into a brewery with an atmospheric brewery café and a large terrace, where you can enjoy our delicious specialty beers and regional dishes.

The artisan site had been abandoned for years. We gave the building a traditional artisan destination. The building was renovated with respect and old elements were preserved as much as possible.

The Musketeers Brewery

themusketeersbrewery

Talking beer.

Brewing beer, a real passion

The Musketeers Brewery was founded in 1999 by four brew engineers. Brewing beer was the hobby and passion of these four friends. Their first brews were developed in the kitchen of Kristof's mother. Twenty years later, two of the founders - Stefaan Soetemans and Kristof De Roo - are still at the helm of this Belgian independent brewery.

The Troubadour beers gradually conquered the Belgian and foreign markets. Troubadour Blond is the oldest descendant of the Troubadour family and has been available and enjoyed by the beer lover since 1999. Two years later, the dark brother followed: Troubadour Obscura. In 2010, the brewers launched their third beer: the Belgian tripel IPA Troubadour Magma.

In May 2019, The Musketeers moved into their brand new craft beer brewery in Sint-Gillis-Waas. This brewery is equipped with a state-of-the-art installation and has a focus on sustainable brewing. The Musketeers Brewery is ready for the future!

Did you know ...

... That the beers of The Musketeers Brewery regularly win prizes at national and international competitions?

... That a lot of groups visit our brand new brewery? A tour in our brewery is a popular event for team buildings and family trips.

COLLAB SERIES

"Life's too short to create alone".

Under this motto, we teamed up with **Nick Brill**, the 2-star chef and owner of restaurant **The Jane** in Antwerp.

Together, we developed **Dirty Talk - Misty IPA**, an intense fruity IPA!

The finish is high-end, matching the unique character of the restaurant and its kitchen. The label with holographic printing is completely different from what you are used to with beer labels. To make the experience complete, each bottle is wrapped and this wrap offers more information about the beer and the taste.

Available in bottle (33 cl) and keg.

BELGIAN LEGENDS SERIES

The Belgian Legends beers are daring and challenge you with their taste, shape, style, bitterness, color and smell... Moreover, the Belgian Legends beers really have something to tell you: every beer refers to a typical (true?) legend!

Discover the legends of the Antwerp giant Antigoon and the Ghent elephant Jack.

Available in bottle (33 cl) and keg.

ABBEY SERIES

Back to the roots, that is what the brewers of The Musketeers Brewery thought.

With the Boudelo beers, they breathed new life into the old abbey of Klein-Sinaai and created a series of abbey beers that everyone likes: a blond beer and a triple as it should be and a grand cru according to tradition.

Beers that appeal to everyone, because they are solidly brewed and stand the test of time.

Available in bottle (33 cl) and keg.

BUCKET LIST SERIES

The Bucket List Series is a series of beers that are strikingly different: limited editions, crafty in taste and at the same time very well conceived, as you are used to of The Musketeers.

The series forms the personal bucket list of the brewers, which will treat the beerlover with a surprising taste experience.

Available in bottle (33 cl) and keg.
